Gary – Please see the attached subject work plan that was revised based on comments received from you on December 22, 2015. The contractor, USA Environment, LP, is scheduled to start mobilizing equipment tomorrow; however, they will not begin placing geotextile or rock until Wednesday. The hope is to load rock Wednesday morning at Blue Bonnet, start transporting and placing rock on site when the first truck arrives, and try to finish late Wednesday or Thursday.

We have tentatively set up the surveyors to come by when the construction is complete.

Please let me know if you have any concerns.

Thank you,  
David
